Hub Coordinator

I am happy to write this message as we are going to bring out the Annual report of Bangalore Hub Homelink documentation program of the financial year of 2021-22. I congratulate Mr. John Joshua for his efforts in preparing this report. As you know, Bangalore Hub has different nodes and each node is expected to do proper documentation of the services carried out on behalf of the children. Data collected and documented will help the organization for any ready reference, especially when there is a request from the government department, in writing project proposals to raise funds, taking organizational level decisions, taking stock of what is being done by the organization during a period, etc.

Director Desk

The In-contact services (children & youth in community getting benefit) are also documented so that we can project all our services. The snippets (Pictorial tool) presented during the staff meeting help our staff to have a better understanding of our services and ensuring the importance of collecting the data and entering it to the system.

Though there are many nodes in our Hub, some of them are not much active. We are trying to make every effort to revive those inactive nodes to keep them part of the network. It is also important to have a discussion with the node directors in order to get to know the interest, understanding on tool and present them the new technology, developments taking place in effective monitoring of children documentation flow as it is very important to the current scenario. We need to realize the importance of documentation in collective and how it affects the effective running of the organization. If we are a registered Child Care Institutions, then it is mandatory that we keep all the basic details in digital form as well as hard copies. The childmiss mobile app is also helping us to get relevant statistics for our regular reflections.

I wish Bangalore Hub all the best and hope that all the nodes may realize the importance of proper documentation for effective running of the organization. Let this annual report give you additional information about what our Hub is doing in Bangalore Province and outside. Let us make the best use of the Homelink data for the good of the organization and for providing better services to children.

A handwritten signature in black ink, reading "Varghese Pallipuram".

Fr. Varghese Pallipuram
Hub Director, Bangalore HUB
Homelink documentation Program

YaR Coordinator

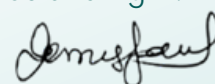

Dear friends I am happy to present the Annual report of Homelink Bangalore Hub, INK Province. Documentation should be our best friend in any sector of our service. As it demonstrates the professionalism and it provides helpful guidance in our performance. Henceforth Homelink Child MISS (Child Management Information System & Services) is a tool designed to document all our activities like the presence of Children, Youth & Community activity of our YaR centers and YaR Services across the Nation through YaR forum, India.

The documentation tool has been come into use for Children, Youth at risk and for the less privileged members of the society since 2012. It has enabled many of our YaR centres and other likeminded NGO's in the network to have a holistic data of the activities.

Hence in province YaR Director's meetings a shared understanding arrived to register the YaR centres in Homelink Network. With help of Hub Director & YaR Coordinator, Hub will help the YaR Centres & YaR Services in the implementation of Homelink Child MISS documentation tool. In fact, in 2014, out of 16 YaR centers in Bangalore province, 11 YaR centers got registered. Congratulations to all who are part of the Homelink Network.

This annual report summarizes the highlights of the year 2021-22. I hope the information will be helpful to you in assessing the effectiveness and responsibilities involved while coming to documentation. Together with these we might come to know the areas that need more attention and time.

My deepest thanks to Mr. John Joshua, Hub Coordinator, Bangalore Hub for his dedication and hard work which rewarded the "Best Hub Coordinator award" from National forum for Young at risk in 2021. Let us work together to give to our Children, Youth and the less privileged members of our society a happy and healthy childhood and adulthood free of Abuse and exploitation and assuring justice and right.

Fr. James Paul, SDB
YaR Coordinator,
Bangalore Province, INK

SPCSA BULLETIN 2012

“

Even in SPCSA bulletin 2012 as "Priority 3: Homelink and Missing child search tool, implementation in all the YaR centres." Has been emphasized to have alike documentation.

HUB Coordinator

With great sense of happiness, we would like to share with you Annual Report 2021-22 of Bangalore Hub which presently consists of 14 Nodes with 66 centers. Child MISS (Management Information System & Services), the web portal of Don Bosco YaR Forum has become a key documentation tool for our Homelink Network Partners. As we release this Hub Annual Report we express our gratitude to Homelink National Team for accompanying us in the preparation of this report.

Child MISS is based on principles of Juvenile Justice Act and UNCRC, to coordinate and monitor tracking of child care system. It tracks the information of children from entry (rescue) to exit (reintegration). It tracks and traces the missing child complaint in comparison with rescued child details and to restore them with families or home-like environment.

Bangalore Hub is based in Bengaluru Oniyavara Seva Coota (BOSCO), Bangalore, since its inception from 2005. BOSCO has been appointed the Nodal agency to coordinate and monitor the registered member organizations of Karnataka and Kerala.

I am grateful to all the nodes of Bangalore Hub, who have willingly cooperated and collaborated to achieve our Child MISS journey in 2020-21. Which brought me an award of "Best Hub Coordinator". I would invite you to actively participate in Child MISS Program in the best interest of the children.

Mr. John Joshua Nirmal.I
Hub Coordinator Bangalore

FINAL ACTION REPORT

TYPE OF RESCUE CASE

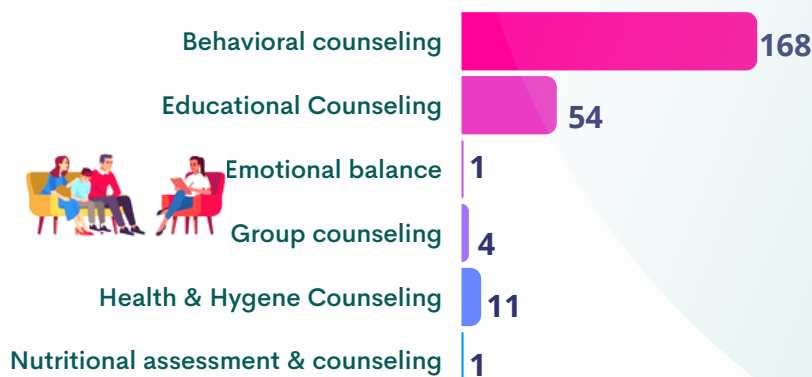

EDUCATION SERVICE

Around 434 children received education services from the nodes. Children are enrolled in the local language or English medium according to the capacity. While coming to gender wise more girls (233) are getting education in compared to boys (201). Education to girls is a good sign, it also represents the importance given to their education keeping future in mind.

PROFESSIONAL COUNSELLING

Nearly 239 children have received professional counselling during the period. Majority of them have received Behavioral counselling when compared to Education counseling. We monitor regularly the growth, improvement of the children who get this facility.

BAREFOOT COUNSELLING

486 children have received Barefoot counselling service during period. How regularly children receive counselling at your centers? How often are they shared with the concerned persons for further bringing about changes in children's behaviour?

SKILL TRAINING

Children & Youth who made use of skill training are 321 (Female 260 & Male 61). They had 9 different skill training facility to be made used., like as Electrical, Bakery, Beautician, Tailoring, Two wheeler, Welding, Carpentry, Computer Basic & Tally & four wheeler driving training. Children and youths are motivated to choose the trades keeping their future in mind

MEDICAL SERVICE

Institution children received 232 medical service. Girls made used 124 & Boys 108. We had both Out-patient & In-patient services. Most common sickness treated were of Cold, Cough, Fever, Dental treatment, IQ check-up, ENT problem, General check-up, Skin diseases, menstrual issues, Hand, Leg fracture, Fits, Covid-19, Body pain, Thyroid check-up, Wounds Etc....

HOME VISIT BY CHILD

During summer vacation, Mid term holidays, on festival occasion or even in emergency situations children had made visit to their homes for a short period of stay. Children get to enjoy the time with their loved ones or care givers. But later they return to the organisation to continue the education due to the family conditions. 84 visits are recorded (Boys- 64 & Girls-20)

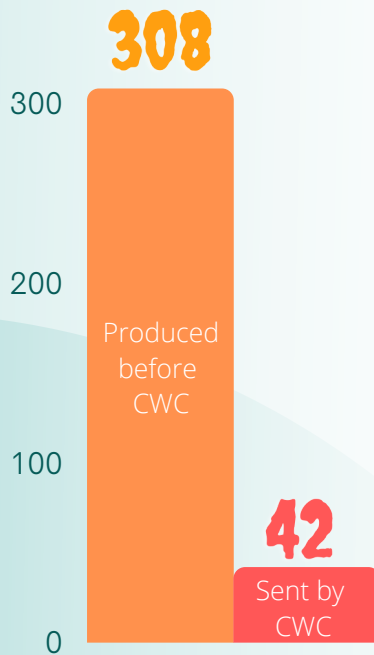

CHILDREN HOME ENQUIRY

Around 17 home enquiry were completed by the node staffs of children (Female – 12 & Male-5). It was done on need base and order of Child Welfare Committee (CWC). They were done on 2 measures before a child gets placed into the organisation & in other case while the child is still staying in the organisation, to know the present condition of the child family.

CHILD WELFARE COMMITTEE REPORT

400

As per the order of Child Welfare Committee (CWC) children are produced & received into the Organisation. During the period 350 times, staff have attended the cases of children. Regular growth of the child is monitored. Re-integration of child with parents or loved ones takes place keeping the best interest the child future in mind.

JOB PLACEMENT

Only 8 entries are made showing that students who got through the skill training are placed in suitable jobs.

PARENT VISIT TO ORGANISATION

91 visit were made by parents or guardians. Among them highest recorded visits were made by Mothers in comparison to parents, relatives, foster care parents, guardians etc. to the organisation. Visit creates a strong bond between child & parent, guardian. Get to understand the sititution of the family.

MISSING CHILD COMPLAINT REPORT

The Child MISS tool has the facility to record the missing child complaint and try to match it against the unaccompanied children details recorded in tool. 27 children complaints are received. They are displayed in common areas where staff and volunteers can check out regularly.

Among the 27 missing complaints 10 were FIR (First Information Report) registered missing child complaints. Out of which 3 children are traced back and 7 yet to be traced.

Among the 27 missing children who got missed from parent. 17 of them are Non-FIR registered out of which 7 got traced through various means. And their cases are closed in the tool. And children are back safe with the parents and loved ones.

On other hand 17 of them are still under the process of follow up. They are yet to be traced and reunited with their loved once. Even parents are in touch on regular intervals to know any clue or updates of children.

OTHER MODULES

VOLUNTEER BASED REPORT

College Student

Professional

Employee

- 29 Around 40 volunteers visited the organisation to render service to the children and Organisation in various ways. Among them Male were 23 & Female were 17. Most of them were college students for internship purpose as represented in the graph. The organisation allowed them to have experience in field visit /area visits, street presence activity, creating awareness along with the staffs on Child rights, Human rights, on child helpline number 1098. Even few got to involved in do counselling to children, support in education, conduct extra-curricular activities. The volunteer records get updated and maintained in the Child MISS documentation tool by Human Resource Department and Management.
- 6
- 5

CARING COMMUNITY GROUP / CLUB REPORT

Information of 34 groups were recorded in Child MISS tool by nodes. Only 3 Nodes have documented the group details. 32 are child rights club in various schools & 2 are Self Help Group details. The recorded information helps us to know the number of members in a group, meeting intervals and members details

EVENT MANAGEMENT

Programs completed in the organisation & of individual projects get recorded in the documentation tool. 49 programs were updated. Few were of Awareness creation in school, Public places, Child Rights club formation, training program, Common celebrations, campaigns related to anti child labour day, Talent enhancement programs get conducted once or twice in a year.

CHILDMISS UPDATION

Updating of all the REDS staff and students in the childmiss website such as Play school, tuition, day care, Spoken English, tailoring and computer was continued by the staff after the lifting of the lockdown. The details of the students in the childmiss Portal regarding their date of birth, Aadhar number, date of joining, name of the class teacher, details of the family members and so on are stored in the website for the future use. Childmiss portal reduces the usage of paper and saves time.

AWARENESS PROGRAM FOR

OTHER ACTIVITIES

Bosco Bangalore

6h • 🌐

Training on Documentation Tools

BOSCO Home Link (HLK) in coordination with BOSCO Nilaya organized half-day training on Documentation Tools for the staff of the centre on August 9, 2021. Mr. John Joshua Nirmal, Coordinator, HLK, introduced the 'In-Contact' format to the team and explained in detail about filling and updating the format. He also explained about updating the details of CRC children, tuition centre children, Karate Club children in the format. Sangeetha, Team Member, HLK briefed about updating the reports/documents in the Child MISS tool. Six staff and two student volunteers of BOSCO Nilaya attended the training.

Taking time off for hands on training amidst the thick of activities.

CHITHRA DON BOSCO is extremely privileged to welcome Mr. John Joshua, the State Hub Coordinator of Homelink network, Bengaluru fir a day of hands on training and on site evaluation of the activities of CHITHRA. The whole team is eager to reenforce their commitment towards the welfare of our own beneficiaries and would restart the data entry process from now on. Thanks to the National and State heads for their generous support and guidance

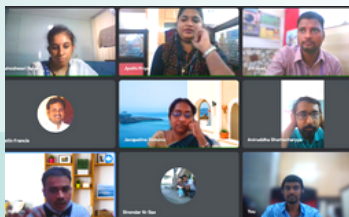

POWER BI TRAINING

Data Virtualisation Power BI training session conducted by Microsoft team from 21st October to 3rd November 2021. It was a 11 days online training. During the training Power BI desktop trial version were provided. Demonstration was done about the access to SQL server. The plan is to implement the Power BI tool in all the nodes for better monitoring. It would help in report generation, to identify the gap & maintain the quality of data. The initiative is in process.

CHILD CATEGORY

A study of category, service, child status and requirement were done among the Hub Coordinator's and Homelink National team. It was worth discussing and improving the collection of data. Individual Hub Coordinators took interest to present & discuss on the modules. Study of each item helped in improving and make the changes in the tool as per the present need, JJ rules. Requirements of the same are gathered and is under process of development.

SHARING OF KNOWLEDGE - ESPECIALLY OF HELP & RESCUE MODULE

Call Type	Information given	Alerted for Dept. concerned	Guidance given	Rescue team sent	Grand Total
24HR Calls	28	05	30	27	90
Child came to office	02	03	03	00	08
Out Reach	03	02	00	02	07
Phone	02	00	00	03	05
Grand Total	35	10	33	32	100

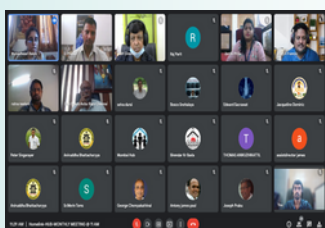

Hub Coordinators got to share the knowledge & experience of Help & Rescue module. As a joint initiative Hub coordinator supported the other hubs through online in presenting a module to the staffs & director. The presentation included the use, purpose and short demonstration of the Homelink Child MISS documentation tool versus the formats. Report generation is given focus. The presentation was organised by Delhi Hub, Kolkata Hub. As a result Directors took it seriously & have implemented the Help & Rescue module & data entry is in process.

UNSPOKEN EPISODE

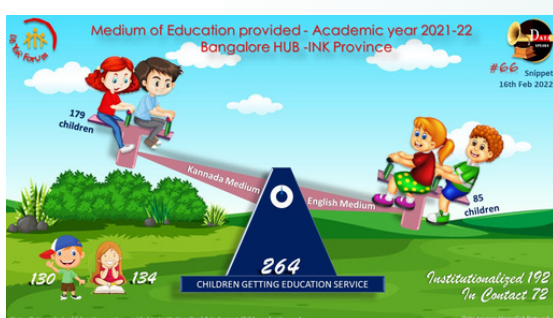

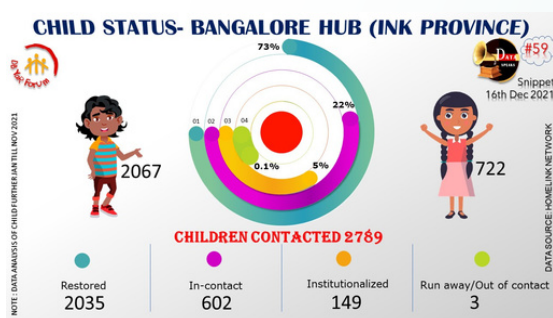

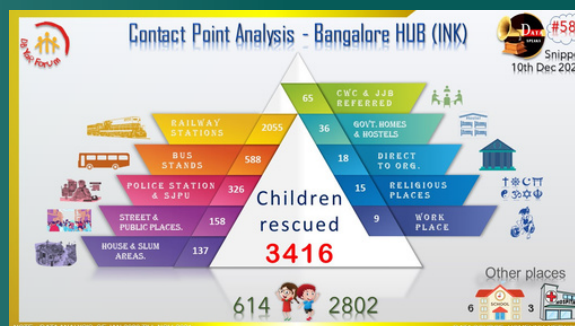

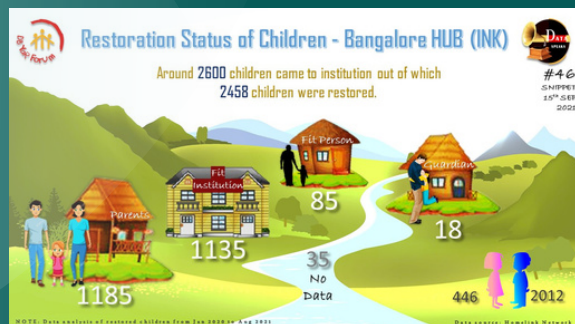

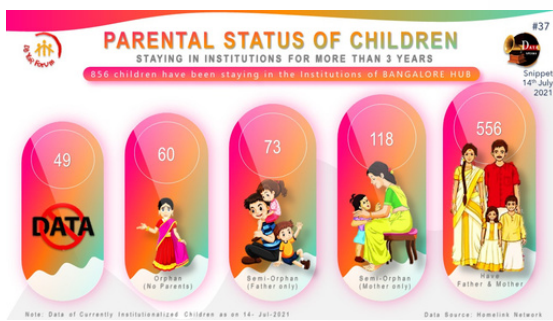

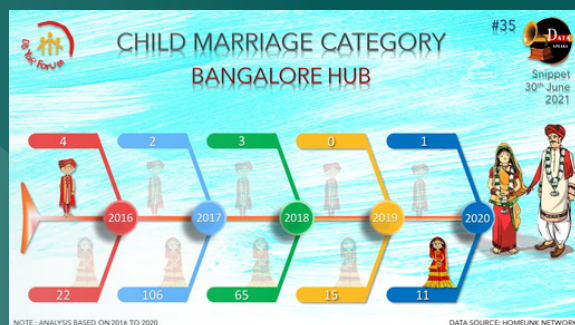

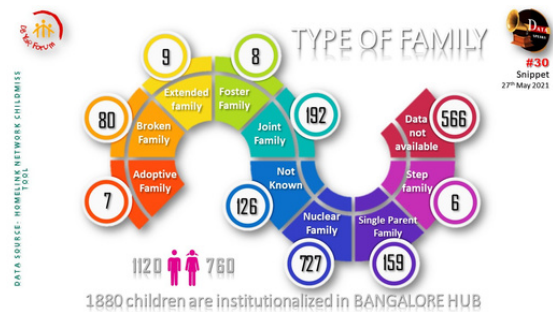

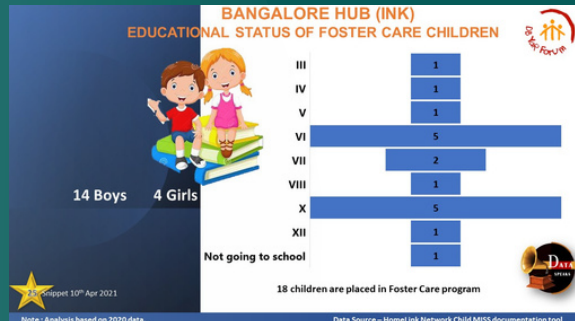

YaR day campaign held during end of August released its theme of the year - "Every child Safe ONLINE". Every month Unspoken episode was conducted through YaR forum, Delhi at end of each month. The online session invitation was shared with all Directors, Coordinator and staffs of YaR centers for their participation through online. As a result, children & staff are made aware. Later the YouTube link of the same episode is shared to participants for future reference and sharing with others.

PROVINCE LEVEL COLLECTIVE MEETINGS

During the current period a new initiative Homelink National team supported the Hub Coordinators by gathering all the province Hub Directors and YaR coordinators nation wide in one platform through online, where Hub Coordinators would shortly present the monthly activities, node status, achievements & challenges before all the province members during the meeting. It was a great time of knowledge sharing and learning. It was also a great time to receive new ideas, support, guidance from leaders and suggestion to go ahead with nodes implementation.

Snippets are prepared as a reflection in Infographic method of the entered data in the documentation tool. They are released in YaR Leaders Province Whatsapp group & shared with all the Node directors & documentation staff. The reflection on the Snippets brought in changes in data collection and updating in node levels. To make it more read friendly snippet are also released local language.

FAMILY BRINGS HAPPINESS IN LIFE

'Family' means different things to different people, and to 15-year-old Nandini, family always meant loneliness. Despite having a mother, Nandini had to spend her entire childhood within the walls of different institutions. worked as a cleaner in K.R. Market. The market was her livelihood and the street were her home.

By the age of 6, Nandini had already stayed in 2 different institutions before being moved to the Government Girls Home (Balakiyara Bala Mandira). Nandini's mother had always been an elusive presence in her life, someone who remained in the fringes of her life but never near enough to be completely hers. Nandini's mother. She did not have a house to shelter her or her daughter, so according to her request to the Girls Home to place her daughter in an institution where she could be safe and get an education at the same time, Nandini was referred to an NGO called Balya run by the Annapurna Charitable Trust, in 2011, by order of the CWC. The next 9 years of Nandini's life were spent in Balya, the longest she has ever stayed in one place. There she finally started forming friendships and relationships that she believed would always stay with her, and Nandini was in for a rude shock when in 2020, she had to be suddenly shifted from the place she saw as home to a completely new institution. In a matter of a few days, Nandini lost all the friends and friendships she had painstakingly nurtured over the years, and all of a sudden, she was back where she had started; alone. The staff of BOSCO still vividly remember the Nandini who had first walked in through the doors of Vatsalya Bhavan; confused, aloof, distant. She stayed far away from everyone and everything, would not mingle with the other children or take part in any of the activities at the centre. From there began the staff's unrelenting efforts to break through the walls of detachment and disinterest that Nandini chose to hide behind. Inch by inch the staff slowly started winning her confidence. Further professional counselling was also sought through a hospital, and all the effort gradually started taking root in her heart and mind, and Nandini started coming to terms with the changes in her life. She was enrolled in school and started going for classes regularly.

But even with noticeable improvement in her demeanour, there was still a lot of underlying pain that was very evident in her frequent mood swings, attachment issues, and her tendency to seek attention. That was the start of Bosco Vatsalya Bhavan attempt to find out if somewhere there was someone Nandini could confidently call family, some place that would give her the sense of belonging she so longed for. The staff contacted her mother to get child's documents and got some clues about her family, and after a lot of excuses and delays by the mother, the staff finally managed to get a phone number from her which turned out to be Nandini's elder brother's number in Tiruvannamalai, a place in Tamil Nadu. From there a whole new story began to unfold.

Since Nandini's mother seemed reluctant to give proper information about her relatives, BOSCO staff sought the help of the Tiruvannamalai police to get more information. Through the police, the staff came to know that Nandini was not alone like she had believed her entire life but had an entire family in Tiruvannamalai. Her father's side of the family were all living there, along with Nandini's own elder brother, step sister, and grandmother. The family was contacted and informed about Nandini, and they were very happy to know that the child they had thought was lost forever was safe. Nandini had spent 13 long years trying to find home in the various institutions she stayed in, but never could, and now, at the end of this long wait, Nandini was finally going to live out her dream. All the necessary procedures to reunite Nandini with her family were completed and a thorough enquiry was done of her family to ensure the child's safety. But being in the 10th standard, Nandini was counselled to first complete what she had begun before she started the next phase of her life. Taking the advice, she completed her 10th standard exam, and with all her responsibilities fulfilled. Nandini left the centre for the one place she had been searching for her whole life; home.

INK - PROVINCE

Achievements Of HUB

- 1 **9 Nodes**
made Active after one-to-one Node status meeting with Directors
- 2 **CHILDLINE**
Help and Rescue module used by 4 Don Bosco centers
- 3 **14 YaR Centers**
Conducted Social audit and submitted the reports
- 4 **Registers**
Mandatory registers are in place in Don Bosco centers
- 5 **31 Snippets**
Shared with all Nodes, Province Groups
- 6 **Infographic Report**
Shared monthly infographic reports with all the Nodes
- 7 **10 Nodes**
Mobile app installed for all Active Node Directors
- 8 **6 HUB Annual Report**
Every year it is prepared and published
- 9 **1 NGO**
Registered in HomeLink Network in 2018
- 10 **CHILDLINE Report**
Able to generate through Child MISS documentation tool

Achievements Of BOSCO

- 1 **11 Modules**
All modules are used by BOSCO to the fullest for documentation
- 2 **Research**
Child MISS data used by Organizations for small researches
- 3 **E-Newsletter**
Child MISS data is published in BOSCO E-Newsletter every month.
- 4 **Registers**
Mandatory registers are in place in Don Bosco centers
- 5 **Monthly Meeting**
Child MISS reports are used in monthly meetings of BOSCO, Bangalore and for project wise reporting by staff
- 6 **Project Report**
BREADS supported projects & various other projects in BOSCO are using Child MISS data for reporting
- 7 **Flow Chart**
Projects and programs wise flow chart prepared for Nodes and presented to the Director and Coordinator.
- 8 **Importance**
Node Coordinator and staffs know the importance of Documentation

Annual YaR Center meeting held in Kolkata on 29th & 30th of November 2021. Programs conducted across YaR centers were presented and discussed. As a part the meeting, on 30th Nov, an online YaR award 2021 distributing program was arranged through online ZOOM platform, during which awards received by organizations, Individual members and SDB's involved in Government services were recognized, appreciated and honored. Also YaR Forum India, awarded few of the organizations and Individual members for their selfless service.

BANGALORE PROVINCE INK, RECEIVED AWARDS

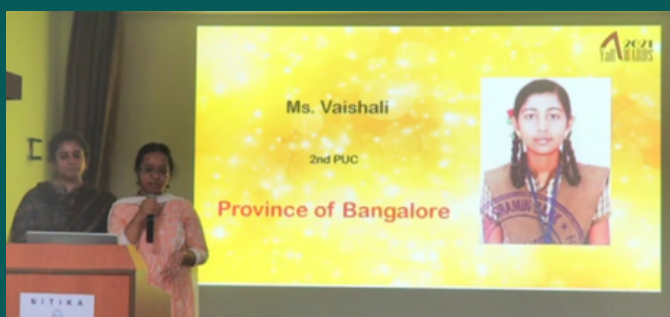

"YAR INNOVATIVE PROGRAMME AWARD" FOR BRIDGE IT – DIGITAL ENTREPRENEURSHIP PROGRAMME – DON BOSCO DEVADURGA.

Secondly "Service of Excellence: Best Hub Coordinator Award" was received by John Joshua Nirmal, Hub Coordinator – Bangalore Hub.

Third award of "YaR service award of Age 18+" Ms. Arpitha, B.com 1st year, from Chithra Don Bosco- Chitradurga, (INK) Bangalore Province was honoured as First winner.

Fourthly award of "YaR service award of Age 18+" Ms. Vaishali, studying in PUC-2nd Year, from Chithra Don Bosco- Chitradurga, (INK) Bangalore Province was honoured as Third winner.

Special congratulations from YaR Coordinator, Fr. Antony James Paul to all INK YaR centers who received awards and have brought honour to INK- Bangalore Province through the service to the Young at Risk.

INFLUENCE OF MOBILE APP

A short presentation of Homelink Child MISS documentation tool and Mobile App with the director of REDS organisation brought in a great change in their documentation system. REDS, Bangalore is an NGO based in Vannarpet area of Vivekanagar Post, Bangalore. They are been mainly working for needy children, young people and women in various plots of the city of Bangalore and Hosur, Tamil Nadu. Their focus is strengthening children's basic education and academic education.

They have been running play school, Evening tuition centers, they provide Vocational training for young people like as tailoring, computer, spoken English courses, also short-term skill training with stay. During the April 2021 monthly meeting, Director Fr. Showrry S.M gave time to introduce the Child MISS documentation tool to the staffs. Even a hands-on training was conducted to staffs. As an outcome director allotted Saturdays for system documentation and individual staff were given training in the tool in their computer lab itself. Now data is updated and the visibility is created.

SURVEY

Based on the children's contact time wise report analysis, decisions were taken to conduct a survey in the vulnerable areas to know the flow of children in the odd hours while staff are less in the field. As a result, shift hours of working is being implemented.

PROJECT PROPOSALS

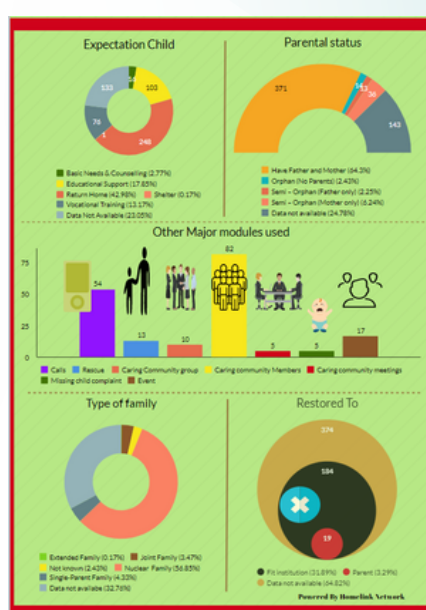

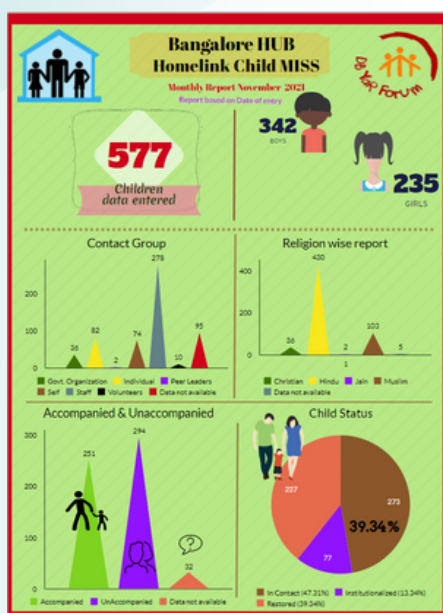

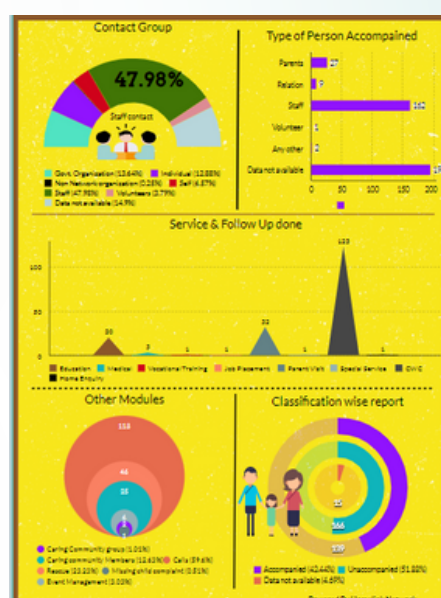

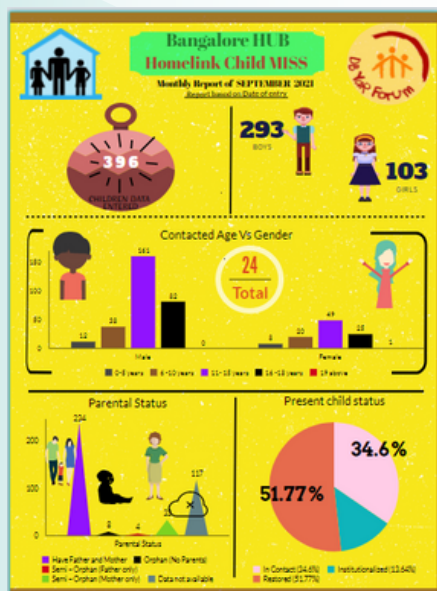

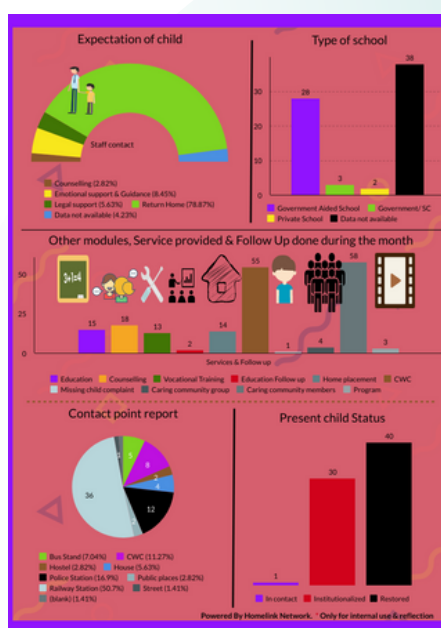

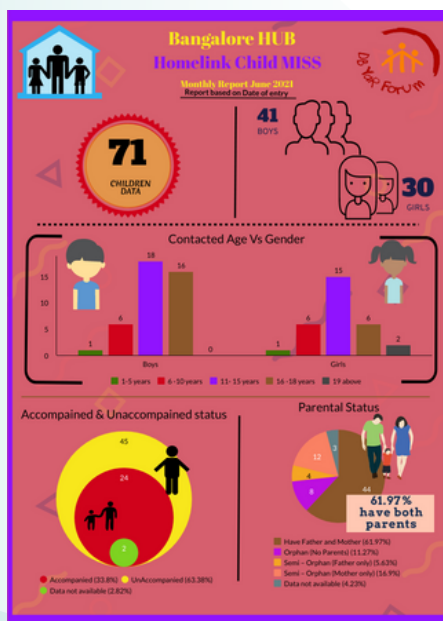

Through the Child MISS document tool node can get the collective data for timely analysis. Based on the data Organization, management and staff get to know the vulnerable children flow & where projects must be strengthened for thier sustainability. As a result, data is used for project proposal writing.

MONTHLY REPORTS

Monthly report helps to compare the flow of children and service provided to them. Even change of the staff shift timings, address the vulnerable areas, caste data collection helps in identifying the schemes of the Government & guide the child's family to get benefits out of the same. Education status of children, final action and children status are getting regularly updated. Ultimately it helps the staff to strengthen the work, set target for short- and long-term intervention.

CAPACITY BUILDING TRAINING ON DOCUMENTATION

Nodes were finding difficultly to report each individual program. Based on the understanding and their project/ program requirement information was collected. Homelink Child MISS documentation tool program report format was introduced to bring in common collection of data for all the existing projects and programs in each of the nodes. Tips are given to get the collective information of children while writing the success story or case study, document the history of child based on the information gathered timely under services and follow up.

Meet our HomeLink team

HomeLink Network

HomeLink Network is an ongoing initiative started by DB YaR Forum in 2002, to ensure appropriate, timely and real-time response to the needs of the young at risk, based on accurate documentation and data analysis supported by the best of technologies available today.

Our accomplished Homelink teamwork towards

- a. Developing data driven childcare system through documentation, research, and networking
 - b. Systematically documenting the systems, processes, and workflow of the organizations
 - c. Data led intervention planning in organizations.
 - d. Data driven advocacy and engagement with stakeholders and government on children's issues
- Harnessing current advances in digital technologies in the service of the work with young at risk
