Director's Message

Dear Friends,

To begin a new year, is a joyful event in everyone's life. It speaks about the extension of our life to a further period of time. It speaks, above all, the goodness of God in extending our stay in this planet to a longer duration. It is joyful because we have received something new that gives us a fresh start.

If that is so with the opening of a new year, how much more should we not think of a new day, a new hour, a new minute, a new second? All these are an extension of our life. Therefore, we need to be always freshly and joyful, and ready to start anew with fresh vigor, fresh thinking, fresh acting and fresh enthusiasm. Let this trend of thought lead us all through the journey of life in this new year 2022.

I am delighted to write a few lines as introduction to this new venture of publishing an annual report of Homelink. I congratulate Mr. Birendar who is the Homelink coordinator in the NE region, for the initiative he has taken to bring out this report.

In a word of internet and digital technologies, it has become a must to update oneself in every sphere of activity and life. Therefore, this publication helps us to know each other, to be conscious about the world situations to be aware of the needs and wants of every individual around us, to learn from each other and to capacitate ourselves in order to effectively contribute to the society in the best way possible.

Fr. Tomey Anikhuzikattil
Hub Director

Node's Information

Snehalaya centre for Child Right is working for the destitute children in the city of Guwahati. It has five sub centres working for upliftment of children based on :Right to survival :Right to Protection: Right to participation: Right to Education.

Words from Hub coordinator

It's my pleasure to extend my gratitude to all the node directors and to all data managers of all the CCIs associated with the HomeLink Network DBYaR forum Delhi. Here, I have highlighted the work done in our YaR centers. The graphical report emphasized data of all nodes fed during the years 2021 & 2022. As in the present scenario, the world has advanced a lot in all the fields of development for data visibility. It has high demand from the donors in the project and to make drastic changes in reporting format. HomeLink portal covers up all sorts of requirements of children data through up-dating in the web portal in which all the Organizations can easily access to generate the report instantly. Homelink helps the organization to grow and strengthens the backbone of the organization through data management.

Mr. Birendar Kumar Baxla
Hub Coordinator

During the year working as Hub coordinator, Homelink edified me to prioritize the basic information in focusing on the welfare of children requirements & needs. Children are the center of the organization and therefore they have every right to seek everything. As they come from different backgrounds and different needs. They are in need of our support and care from the organization. Let us give our best for the formation of children lives and let's bring color to the life of children. Help them to make their dreams come true in every little way they need our support physically and emotionally & in other aspects of life.

Once again my sincere thanks to my Director, YaR coordinators, National team and hub coordinators to support me in the growth of the Guwahati hub. There is a saying: 'A plant doesn't bear fruit within a day, it takes time to bear fruit' in the same way the transformation of children depends on the success of children's progress and enrichment in life. Be vigilant in every step to save the children from the darkness of evil.

Meet our team

HomeLink Network

HomeLink Network is an ongoing initiative started by DB YaR Forum in 2002, to ensure appropriate, timely and real-time response to the needs of the young at risk, based on accurate documentation and data analysis supported by the best of technologies available today.

Our accomplished Homelink team work towards

- a. Developing data driven childcare system through documentation, research, and networking
 - b. Systematically documenting the systems, processes, and workflow of the organizations
 - c. Data led intervention planning in organizations.
 - d. Data driven advocacy and engagement with stakeholders and government on children's issues
- Harnessing current advances in digital technologies in the service of the work with young at risk
