HUB DIRECTOR'S MESSAGE

Dear Friends,

Technology and data-driven insights have transformed the social development landscape, enabling more efficient and effective programs. As we navigate the complexities of serving vulnerable populations, and the power of information systems becomes increasingly apparent. The digital tools not only streamline our processes but also provide us with invaluable insights that shape our strategies and interventions.

The utilization of digital platforms such as HomeLink DIGI broadens the scope of our services beyond conventional limits. This shift towards digitalization not only improves our service delivery but also encourages increased cooperation among different stakeholders in the field of social work. By leveraging the power of data analytics, we can now recognize patterns, forecast trends, and allocate resources with exceptional accuracy. This data-driven strategy will enable us to react promptly and efficiently to the requirements of children and families in distress, empowering us to make well-informed choices that significantly influence the lives of those we support.

As I conclude my tenure as the Mumbai Hub Director, I am glad to have served in this capacity and to have witnessed the growth and impact of our data-driven initiatives. I now wish the new Hub Director every success in taking the HomeLink network to even greater heights. Together, by leveraging technology we can continue to transform and create lasting positive change for those we serve.

Fr Corlis Gonsalves
Mumbai Hub Director

YAR COORDINATOR'S (INB PROVINCE) MESSAGE

As I reflect on my time as the YaR Coordinator of the Mumbai province, I am filled with gratitude for the invaluable experience and knowledge I've gained. This role has offered me a unique opportunity to delve deeper into the world of technology and witness firsthand how it can profoundly benefit the vulnerable young people we work with.

The HomeLink Network, a cornerstone of our efforts, has undergone constant improvement over the years. This digital platform has revolutionized our approach to serving Young at Risk (YaR) and reaching a diverse group of vulnerable youth.

Working closely with the HomeLink team has been an enlightening and rewarding experience. I've had the privilege of witnessing the power of technology in transforming lives and streamlining our efforts. Looking ahead, I am filled with hope and excitement for the future of the HomeLink DIGI Network. My wish is to see it flourish not only within the Don Bosco organizations but also extend its reach to external NGOs working towards similar causes. By fostering collaboration and sharing our technological resources, we can amplify our impact and create a more robust support system for vulnerable youth.

I want to express my heartfelt gratitude to all those actively involved in creating and maintaining this service.

As I conclude my tenure as the YaR Coordinator, I am filled with thanksgiving for the opportunity. To the incoming coordinator, I extend my best wishes and support. May you find this role as rewarding and enlightening as I have, and may your efforts continue to drive positive change in the lives of our young at risk.

Fr Lester Fernandes
YaR Coordinator
INB Province

YAR COORDINATOR'S (INP) MESSAGE

Dear Friends

All of us cannot deny that we are being driven by technology and we cannot but effectively use technology to create impact, and report generation.

They say NGOs that do not excel in SCIENTIFIC DATA COLLECTION HAVE NO FUTURE.

NGOs across the length and breadth of the country are realizing the power of data in improving work efficiency, cutting costs, managing donors, and even predicting the future. While many of them were averse to the idea of data-driven decisions, we were pleasantly surprised by several who were already putting data to effective use. Organizations are using data to measure and increase their impact.

HOMELINK-DIGI is a digital platform for scientific data collection. Its use makes our work more effective for the young at risk, benefits activities and improves institutional functioning.

May all of us make maximum use of the tool at our disposal. Let us timely update data to get the correct picture of our impact.

Congrats to the Hub Team as you continue to help us to keep in being more relevant and update our work. Let us support the Hub Team today and help the vulnerable entrusted to our care.

Fr. Jose Sequeira
YaR Coordinator
INP Province

HUB COORDINATOR'S MESSAGE

This year has been transformative for our efforts, marked by the evolution of ChildMISS into our new platform, HomeLink DIGI (Data Intelligence for Global Interface). This upgrade represents a significant leap forward in our data management and service delivery capabilities, not only for child welfare but also for other target groups we work with.

HomeLink DIGI introduces exciting features, such as a user-friendly web interface, a mobile application for on-the-go access, biometrics, enhanced reporting tools and many more. These improvements will streamline our work, allowing us to respond more quickly and effectively to the diverse needs of those we serve. The importance of data in our field cannot be overstated—it provides insights that shape our strategies and interventions.

We are excited to see like-minded NGOs join our network, as collaboration amplifies our impact. The platform's design facilitates seamless information sharing and coordination among partners, which is crucial for comprehensive care and support.

The data collected through ChildMISS has already proven invaluable, enabling us to conduct mini-research and reflect on our practices. This culture of data-driven decision-making will only grow stronger with HomeLink DIGI. I extend my heartfelt gratitude to everyone who contributed to developing both the web tool and the new mobile app. Your dedication and expertise have provided us with a powerful resource to further our mission.

To our existing HomeLink partners and the diligent staff who consistently update data: your efforts are the foundation of our success. The insights we gain from your work are instrumental in improving the lives of those we serve.

As we embrace this new chapter, let's remember that every data point represents a story and an opportunity to make a difference. In the words of Nelson Mandela, "There can be no keener revelation of a society's soul than the way in which it treats its children." With HomeLink DIGI, we are better equipped than ever to support those who need it most.

Let's utilize this platform to its fullest potential, advancing our mission and amplifying our impact. Together, we can create a brighter future for everyone in our care.

Ms Khushboo Mangrati
Mumbai Hub Coordinator

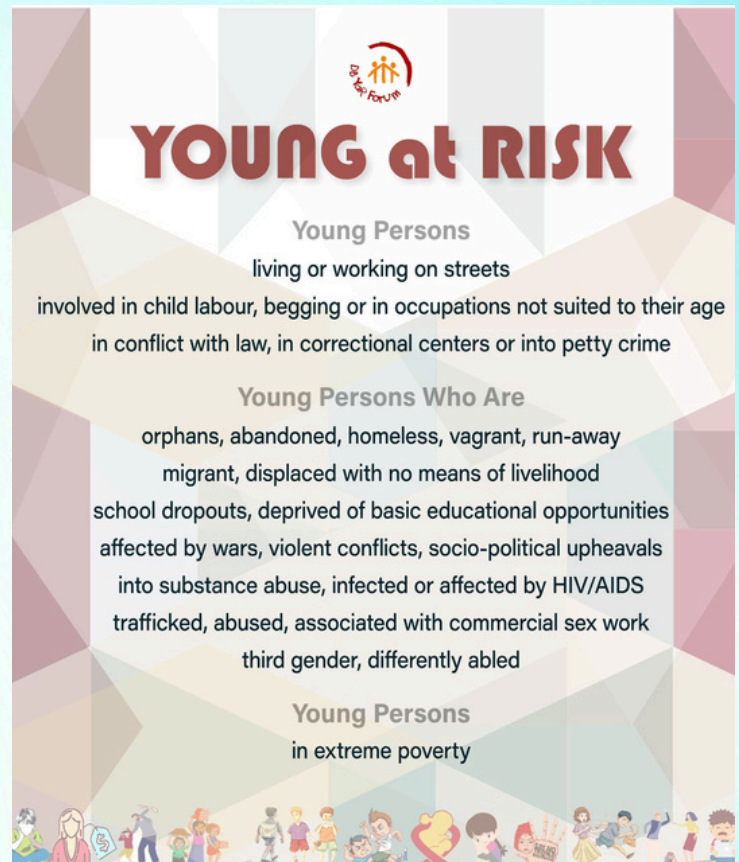

YAR FORUM

Don Bosco National Forum for the Young at Risk, also known as DB YaR Forum, is the all-India network of Don Bosco institutions and organizations committed to the safety, growth, development and rights of at-risk, vulnerable, marginalized children and young adults. Inspired by Don Bosco, the vision of DB YaR Forum is of a world where every child and every young person lives, and grows towards “fullness of life” in secure, enabling environments. We walk in the footsteps of Saint Don Bosco who dedicated his life to helping young people especially the most marginalized and oppressed. By “Young at Risk” (YaR), we mean children and young adults, who are in or have been through situations of neglect, abuse, exploitation, exclusion, violence, or experiences that negatively impact their lives. We reach out to the Young at Risk though presences on streets, in market places, in railway and bus stations, in “slums”.

We engage in rescue and emergency assistance to children in difficult circumstances. We run a variety of child care institutions, including drop-in centres; open shelters and reception units, and children’s homes. We offer counselling, rehabilitation and social reintegration, vocational guidance, skill development and placement services. We run bridge courses, coaching classes and drop-out prevention programmes.

We offer young people opportunities for holistic and integral education adapted to individual requirements. From the first contacts, our multi-skilled and dedicated teams accompany young persons, enabling and empowering them to stand on their own feet and take their place in society.

HOMELINK DIGI

MOBILE APP

The mobile application comes with a data entry feature and assists in monitoring and live reporting, making it easily accessible and instantly available for Data accountability.

POWER BI REPORTS

A Power BI report is a multi-perspective pictorial report that presents various information and findings through charts and graphs. It offers clear visual insights that aid in understanding data, ensuring the effectiveness of service execution with comprehensive strategic planning.

WHO CAN BENEFIT?

Don Bosco National Forum for the Young at Risk (DB YaR Forum) was established in 2002. Its mission is to reflect, share and coordinate services for South Asia's at-risk children and young people. The DB YaR Forum aims to collaborate with civil society, government and non-governmental organizations to influence relevant policies at the state, national and international levels. We have initiated a data-driven management and intervention planning supported by the latest technologies and practices. Homelink Network is an ongoing initiative to respond effectively to changing needs based on accurate documentation and data analysis. Homelink DIGI will assist in timely and factual monitoring and intervention planning for children and young people at risk. Over the years, Homelink Network has grown - with 90 partners.

MUMBAI HUB- NODES

Mumbai Hub

The Mumbai Hub includes two provinces - INB(Bombay) and INP(Panjim) Province. As of now, the Mumbai Hub has five active nodes and has been committed to working for the welfare of children in need of care and protection by providing them with various services like education, counseling, medical, job placements, etc.

The Mumbai Hub has its main office in Bosco Boys Home, Borivali- Mumbai.

Don Bosco Snehalaya, Vadodara

Don Bosco Snehalaya, A Home of Love, was founded on May 24, 2001. Snehalaya's primary objective is to provide shelter to young people who are in need of care and protection, especially to those on railway stations and streets. Food, clothing, medicines, recreational facilities, counseling, job placement, contact with their relatives, and training in various income-generating trades are all provided by Snehalaya. This aids in the development of their self-esteem and the realization that they, too, can make a contribution to society.

Bosco Boys Home, Borivali

BBH offers care and protection for children who are vulnerable, who are basically coming from a harsh background where they are often faced with a situation of fear, poverty, homelessness, neglect, abuse, deprivation and labor. n. Their care covers education, food, clothing, leisure activities, life skills, vocational training, job placements and health and hygiene. Protection is offered through secure and comfortable living conditions away from the snares of street life.

Shelter Don Bosco, Wadala

Shelter Don Bosco is a Non-Governmental Organisation working with the Roofless and Rootless Street Children of the City of Mumbai since 1987. Initiated by the Salesian Society in the Province of Mumbai, Shelter Don Bosco is a part of the Don Bosco family of institutions that work with and for youth, especially the emarginated ones. Over the past years Shelter Don Bosco has responded to the growing needs and demands of our young in various ways, each of which has led to several different projects that seek to empower the marginalized child.

Shelter Don Bosco, Nashik

Shelter Don Bosco is a branch of Wadala Mumbai and was started on 6th November 2017 in Nashik. They aim to build a world where children from vulnerable situations can grow to be self-confident and independent, living a stable and dignified life as responsible and productive members of society. They have a protective home environment and educate and rehabilitate the children through a well-designed consistent follow-up process. They conduct oratory classes for the children of migrant families belonging to different areas nearby Nashik.

Margaret Bosco Bal Sadan, Goa (MBBS)

Margaret Bosco Bal Sadan (MBBS) is a Don Bosco's Child Care Institution (CCI), a Home for boys in need and protection recognized by government authorities under the Directorate of Women and Child Development (DWCD). By nurturing, listening, and prioritizing, they deal with underprivileged children and youth and make every effort to provide them roots and wings to stand up in society with dignity.

DATA ENTRY DETAILS

Education: Child MISS has recorded 953 entries on the education service module and follow-up module. These entries reflect the commitment to providing children with a quality education and ensuring regular follow-up from schools, parent-teacher meetings, and other relevant activities. This data showcases our dedication to ensuring that children receive the education they deserve.

Saving: 45 entries have been saved, indicating that the bank accounts of the children do exist but need to be regularly updated. This practice holds great significance as it ensures their financial well-being in the future. By fostering a culture of saving, children are equipped with the necessary resources to pursue their aspirations.

Medical: A total of 748 data entries have been diligently recorded, documenting the various types of illnesses treated at infirmaries, hospitals, and other medical facilities. The YaR centers are committed to provide comprehensive medical care. The health and well-being of the children are prioritized and it is ensured that there is prompt access to medical attention when needed.

Counselling: 588 barefoot counselling, professional counselling sessions and group counselling have been recorded across our centres. Through counselling, they address emotional concerns and provide psychological support. By actively engaging with the emotional well-being of the children, the centres strive to create a nurturing environment that fosters their mental health and overall development.

Home Visit: The YaR Centers have recorded 144 data of the Home Visits. The centres are maintaining a strong connection with families of children. These visits emphasize the importance of staying in touch with families, even when a child is in a childcare institution. By actively engaging with families, the aim is to create a collaborative support system that enhances the child's overall well-being.

Parents Visit: 498 entries documenting parents/guardians' visits to meet the children have been recorded. These visits signify the significant role families play in a child's life. By encouraging and facilitating these visits, the centres actively promote positive family dynamics and create an environment that nurtures the child's emotional bonds.

Child Achievement: The Child Achievement module has recorded 878 entries. Every child's achievements are meticulously recorded to generate comprehensive reports, which serve as valuable resources for counselling sessions and even when the child is being restored. By recognizing and celebrating the child's accomplishments, these reports aim to reinforce their active participation, boost self-esteem, and inspire continued engagement. The introduction of this module has been well-received, leading to enhanced monitoring and appreciation of the child's progress.

NODE VISITS

Node visits were conducted as a catalyst for transformative change, serving to strengthen, empower, and reinforce our commitment. These visits were designed to address queries, train the staff, and promote the new Homelink DIGI app. Regular follow-ups were initiated to ensure assistance and need-based interventions for all the nodes."

1. Shelter Don Bosco, Wadala- Node visits to Shelter Don Bosco were made for data cleaning, updating the pending data, annual report data preparation and promoting updates and usage of Child MISS. One-day orientation was also organized on Homelink DIGI and its features.

2. Shelter Don Bosco, Nashik- Training on modules, flow charts and maintenance of registers and orientation was also organized on Homelink DIGI and its features. YaR Campaign sessions were also covered during the node visit.

3. Margaret Bosco Bal Sadan (MBBS)- Node visit was conducted to understand the organization's projects, promote updates and usage of Child Achievement and Success Story modules of Child MISS. Staff were also trained on making snippets. Concerns and requirements were also highlighted by the nodes.

4. Don Bosco Snehalaya- During the node visit to Snehalaya, comprehensive training sessions were conducted for all staff members, focusing on the significance of cultivating a data-driven culture and its inherent usefulness. The training sessions catered to different departments, ensuring that module-wise training was imparted. Moreover, the interactive sessions allowed for queries and doubts to be addressed and clarified effectively.

Other than this, sessions and activities for children related to Healthy Mind Healthy Life were also conducted during the node visits.

TRAINING AND SEMINARS

YaR Leaders Orientation Training

The YaR Leaders' Orientation took place on July 27-28, 2023 at SPCI House, New Delhi. This two-day event focused on youth ministry, financial sustainability, skill development, advocacy, and child protection. Participants gained new skills and motivation to help at-risk adolescents overcome challenges and reach their potential. The new YaR Website was also launched during the event, marking a significant step in digital outreach efforts.

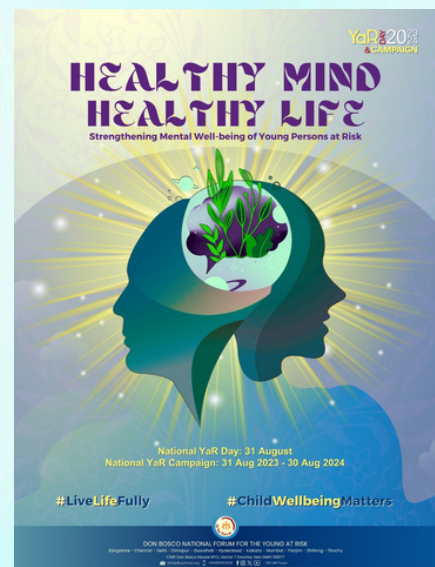

YaR Day Celebration

YaR Day was celebrated across our centres with the theme "Healthy Mind, Healthy Life." Various centres organized engaging sessions and activities centered on this important topic, promoting mental health awareness and well-being among the young we serve. These events provided valuable insights and practical tools for maintaining a healthy mind, contributing to the overall development and resilience of the young people.

National YaR Seminar

The 18th National YaR Seminar, themed "Enhancing Mental Well-being of Young at Risk," was held from September 20-21, 2023, at Don Bosco Ennore by the INM Province in collaboration with the DB National Forum for Young at Risk. The seminar featured panel discussions and in-depth sessions on promoting mental health among at-risk youth, aligning with the "Healthy Mind, Healthy Life" theme. Participants strategized on future province-level activities to better serve young people at risk.

Visit from Youth Ministry sector(Rome) in Mumbai province

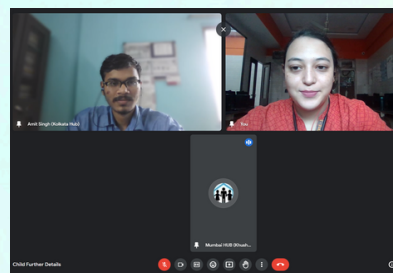

Fr. Rafael Bejarano Rivera from the Youth Ministry sector in Rome visited the Mumbai province in November 2023. He toured Young at Risk Centers and migrant desks. A meeting with directors and staff was conducted in Nashik on 22nd November 2023. The status and impact of Homelink in the Mumbai and Panjim provinces were presented. Fr. Rafael engaged in discussions with Salesians, caregivers, youth, and children to understand capacity-building measures, societal integration efforts, and how social service activities align with Salesian Youth Ministry goals.

ONLINE TRAININGS

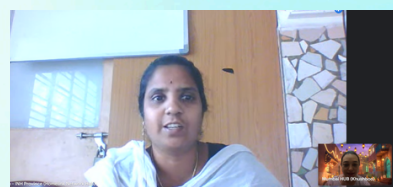

Training of new Hub Coordinator

The new Hub Coordinator for Kolkata and Hyderabad was given proper and elaborate training by the National team and the other hub coordinators. The training conducted was on Registers according to the JJ Act, Child MISS tool, snippets, infographics, contacting the nodes, flow charts of projects and programs and timesheets. Weekly meetings and monthly meetings were conducted at regular intervals.

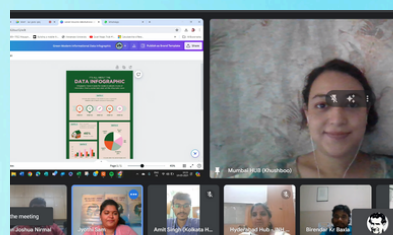

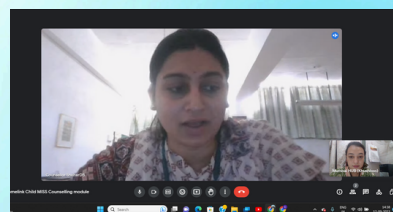

Node online training

Online discussions and training were conducted to upgrade the nodes' documentation system. The Hub coordinator and the national team guided the documentation process and all other matters related to this. The nodes received guidance on how to register with Canva and create posters and presentations for various occasions.

Infographic report training

An informative and engaging training session on creating infographics on Canva was conducted for the hub coordinators by Mrs. Jyoti Priya. This training aimed to enhance the skills in visual storytelling and data presentation.

Homelink DIGI Release

National Training and Launch of Homelink DIGI DB YaR Forum hosted a "Digital Innovation and Social Transformation" training in Goa from January 17-19, 2024. The event, led by Elait team, aimed to empower 30 Hub Directors, Coordinators, and delegates from 11 provinces with digital skills.

Homelink DIGI Testing by HLK Team

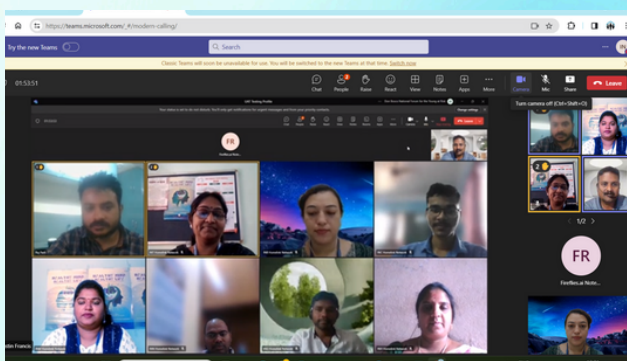

A comprehensive series of User Acceptance Testing (UTA) sessions was conducted and is currently ongoing. By focusing on key areas of the tool and application, the UTA testing aims to enhance reliability and functionality for optimal performance.

Other Online Sessions

Training sessions on the DPDP Act, Child Parliament, and other relevant topics were held online to ensure continuous updates and skill enhancement. These sessions aimed to keep the hub coordinators informed about the latest developments, improve their knowledge base, and equip them with the necessary skills to effectively carry out their responsibilities. The online format provided flexibility and accessibility, enabling participants to engage in learning at their convenience, thereby fostering a culture of ongoing professional development.

Training for NGOs and Civil Society Organizations

Awareness was raised on digitalization, Homelink Network. It was presented to FMA Sisters' National Coordinator for potential nationwide expansion, CWC Members and two other CCIs.

SOCIAL AUDIT

Social Audit was conducted by the YaR Coordinators, Hub Coordinators and other team members across all YaR run CCIs in Mumbai and Panjim Provinces. The social audit specifically called as the Don Bosco Standards of Care document is a comprehensive framework that highlights the Salesian community's commitment to providing exceptional care and support to young people. Developed collaboratively by educators, administrators, caregivers, and experts, this document embodies the values, principles, and best practices that define the Don Bosco approach. It ensures legal compliance while integrating the unique Salesian philosophy of nurturing and empowering at-risk youth. These standards set a foundational benchmark for member organizations, promoting continuous improvement and adherence to the highest standards of holistic care and development.

SNIPPETS

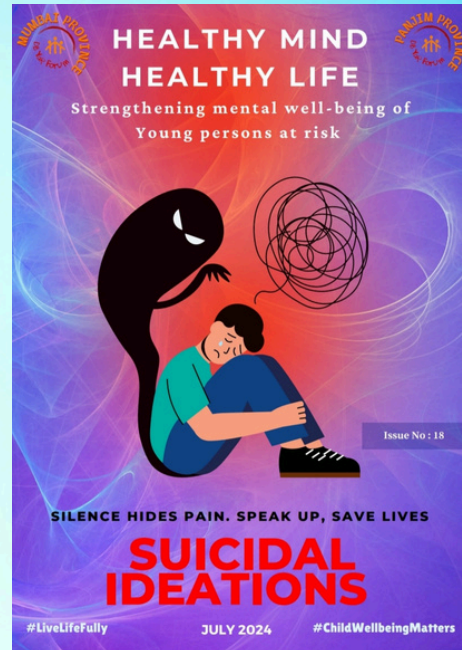

Snippets are simplified pictorial representations of data. This allows us to reflect on various issues on the node or hub level. Snippets are beneficial as it allows organization/ hub to share their work with the public, communicate and engage with supporters, beneficiaries, and anyone who are interested in what they do. The snippets focused on Child Care Institutions and the services provided by them.

FLIPBOOK

Flipbook on Suicidal Ideation for Young at Risk:

A comprehensive flipbook has been developed to address suicidal ideation among the young at risk. This resource provides essential guidance for institutions, caregivers, and volunteers on understanding, identifying, and responding to suicidal tendencies in vulnerable children. It includes information on warning signs, intervention strategies, and a list of helplines and suicide prevention organizations. The flipbook aims to equip stakeholders with the knowledge and tools to create safer, more nurturing environments for young at risk

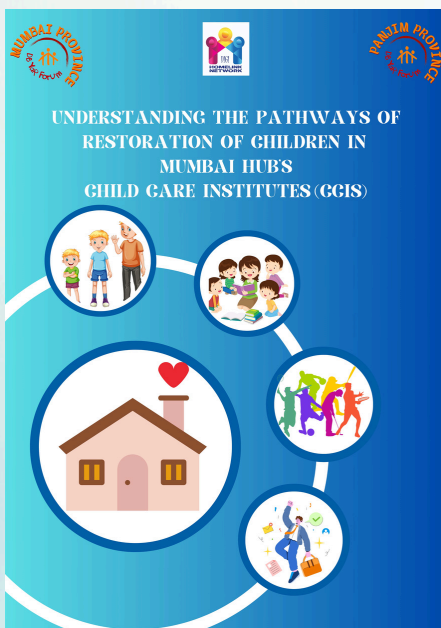

MINI RESEARCH

Mini-Research on Restored Children:

A mini-research was conducted to seek and explore the experiences of children of Mumbai Hub's CCIs and after care service, their journey to restoration, and their current status. This study aimed to provide insights that will help inform alternative forms of care for these children.

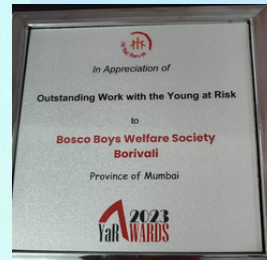

Objectives of the study were as follows-

1. To investigate the socio-economic conditions and duration of children's stay in our care.
2. To explore the details of children's restoration, including the authorities and families to whom they were restored.
3. To gain an understanding of the current circumstances
4. To propose alternative forms of care that could better serve the needs of children who have spent time in CCIs.

ACHIEVEMENT

Bosco boys Home won YaR Awards for awards for Outstanding work with the Young at Risk received by Individuals

Shelter Don Bosco, Wadala won the best YaR Short Film award

Released Flipbook and Mini research

HLK Hub Coordinator part of YaR Commission (INB Province)

Nodes are coming to the realization of the importance of Documentation and are in the process of upgrading themselves.

Social Audit done in all CCIs in INB and INP Provinces.

HOMELINK NETWORK

Homelink Network is an ongoing initiative started by DB YaR Forum in 2002, to ensure appropriate, timely and real-time response to the needs of the young at risk, based on accurate documentation and data analysis supported by the best of technologies available today.

WE WORK TOWARDS

- a. Developing data driven childcare system through documentation, research, and networking
- b. Systematically documenting the systems, processes, and workflow of the organizations
- c. Data led intervention planning in organizations
- d. Data driven advocacy and engagement with stakeholders and government on children's issues
- e. Harnessing current advances in digital technologies in the service of the work with young at risk
